 **RE CERCA**

What's?

NOTÍCIAS DE RE CERCA

An institutional experience for communicating research performed at the institution, in Science, Technology, Social Sciences and Humanities.

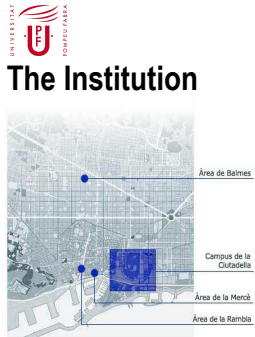

The aim is to communicate to the whole university community what scientists of other fields are working on.

Universitat Pompeu Fabra is a publicly funded university created by a decree from the Parliament of Catalonia on the 18th of June 1990.

The Institution

Educational activity began in 1990-1991
 Law, Economic Sciences and Business

Today: Social Sciences and Communications, Humanities, Health and Life Sciences and Technology

What is Notícies de Recerca UPF?

Notícies de Recerca UPF is a monthly eight-to-twelve pages paper bulletin.

At the moment!

How does it look like?

Ennevista a Miguel Beato, director del CIRG

Vos investigadors de la UPF distingits per la seva recerca

ETUA acull el I Congrés Internacional de Variació Lingüística a Europa

També en aquest número 6

RE CERCA

Which are our sources?

*Departments of Research
Research Institutes*

But not all research: only excellence research
peer reviewed research
preliminary research

What do we publish?

News

*Last news: research news
Doing research: a special research
Interview: national science or
humanities policy-maker
Beginning research*

*Thesis
Publications
Activities: conferences...*

What do we publish?

*Tribuna oberta: opinion (vice-rector)
From research department:
- research policies news
- open or conceded grants*

What do we publish?

Resources

Resources for research:
- research department:
open grants
- library
- why to write papers
- animal lab services
- technical services

How do we do it?

Always
- bibliography
- contact address

Why?

The final aim is:
- improve connections among scientists
- publicise recognition of excellence in research
production
Is a mean of research transparency at the University.

Why?

Is a way
for young researchers
to exercise their
communication writing.
